

EXAMS

# Exam AI-900: Microsoft Azure AI Fundamentals

## ⚠ Warning

The requirements for this certification are changing. The related exam for AI-900 will retire on June 30, 2026. It will be replaced with AI-901. You can continue to earn this certification after AI-900 retires by passing AI-901. [Learn more](#).

This exam is an opportunity for you to demonstrate knowledge of machine learning and AI concepts and related Microsoft Azure services. As a candidate for this exam, you should have familiarity with Exam AI-900's self-paced or instructor-led learning material.

This exam is intended for you if you have both technical and non-technical backgrounds. Data science and software engineering experience are not required. However, you would benefit from having awareness of:

- Basic cloud concepts
- Client-server applications

You can use Azure AI Fundamentals to prepare for other Azure role-based certifications like Azure Data Scientist Associate or Azure AI Engineer Associate, but it's not a prerequisite for any of them.

You may be eligible for ACE college credit if you pass this certification exam. See [ACE college credit for certification exams](#) for details.

## ℹ Important

The English language version of this exam was updated on May 2, 2025. Review the study guide linked in the "Tip" box for details about the latest changes. If a localized version of this exam is available, it will be updated approximately eight weeks after this date. While Microsoft makes every effort to update localized versions as noted, there may be times when the localized versions of this exam are not updated on this schedule.

Passing score: 700. [Learn more about exam scores.](#)
